

*Promote your business  
with email blasts and  
social media posts within  
the Jewish community*

---

Social media engagement within the Jewish community is rapidly increasing in all types of categories including: job seeking, real estate rentals, community business posts, local events and more. Social Media sites such as WhatsApp, Facebook, Telegram and Instagram are now the most popular target for marketing and advertising.

Jewish Media Blast was established in order to improve your business access to the Jewish community.

We offer this unique advertising platform in order to promote your services to your target audience with tens of thousands of email addresses and various social media promotion channels.

Our service includes advertising packages in over 85 WhatsApp and Facebook groups, extended email lists, customized designer banners in all main social media platforms and more.

## OUR PROMOTION CHANNELS

We use numerous social media channels, email blasts, and other marketing techniques to help promote your message!  
Your success is our success!

### 01 EMAIL BLASTS

Email blasts are a great advertising option in order to offer you services to people within the community.

### 02 SOCIAL MEDIA POSTS

Promote your business in our various social media channels including WhatsApp, Facebook, Twitter, Telegram, Instagram and more.

### 03 WHATSAPP ADS

Advertise your business to thousands of actively involved WhatsApp group members. We run over 85 WhatsApp groups with 150-200 people in each group. And this number is growing!

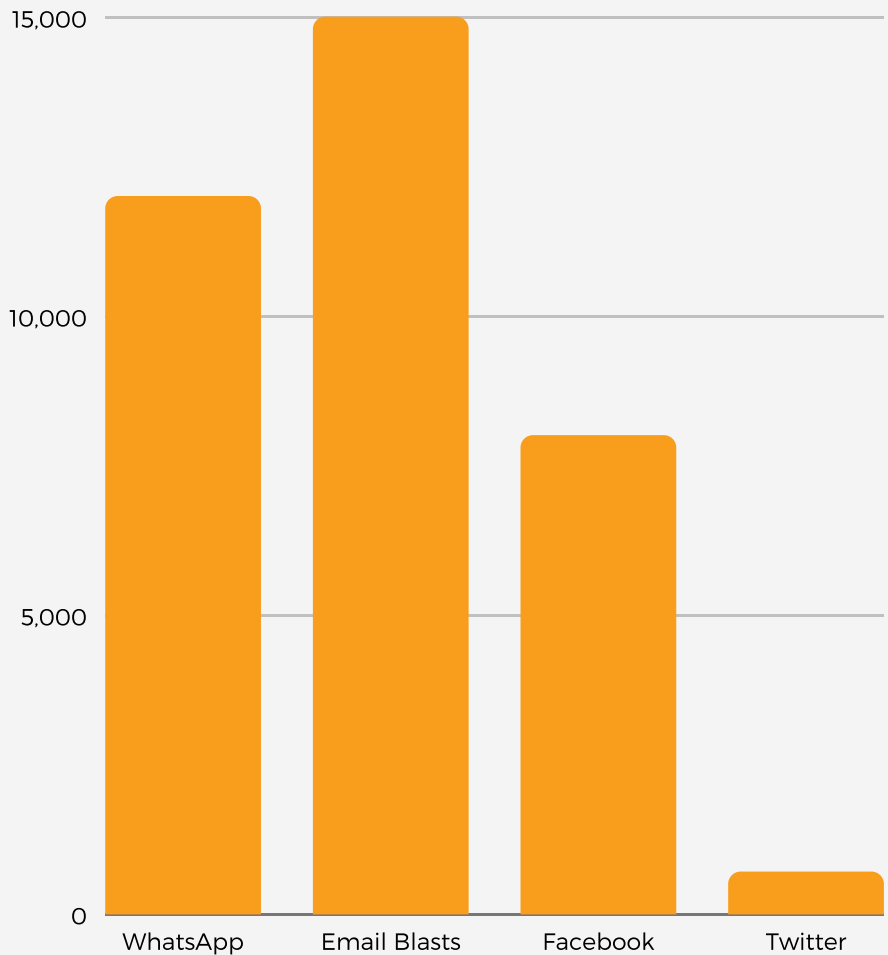

## Number of Views

---

We will promote your business in various channels and help you understand how much exposure you get from each option.
